STP-300 SS Single Sided Thermal Transfer Printer

Product Overview:

The Sumitag™ STP-300 SS single sided printer offers high volume, high performance printing on heat shrink sleeves. This robust thermal transfer printer is manufactured for industrial applications and offers excellent print definition and mark permanence. A time-saving solution for wire marking where waste and labeling error is greatly reduced. World-class Sumilabel™ software features allow for maximum creativity and flexibility printing needs.

Product Features:

- Auto calibration positioning for fast media changes.
- Convenient navigation panel.
- Ethernet or USB communication.
- Fully compatible with all Sumitag™ products.

Technical Specifications:

Print Resolution	300 dpi
Print Speed	1”-5” per second
