

Engraved Labels

Sharpmark engraved labels provide cost effective solutions for extremely durable and high quality labelling of professional installations

We produce our engraved labels in-house using state of the art laser engraving technology, so you can have your labels quickly at very competitive prices.

Suitable for a wide range of applications from labelling patch panels and outlet modules to warning signs on high voltage installations, Sharpmark engraved labels are made to your precise specifications. We have template information for most networking equipment on the market so ordering is simple.

- **High quality** – Traffolyte style labels produced using precision lasers by our experienced team.
- **Fast lead time** – we aim to deliver within 1-2 working days and confirm the delivery date when you place your order.
- **Easy ordering** – just email us with your numbering scheme, the type of equipment and colour choice then we'll do the rest. Or send us the size and text required.

- **Wide colour range** – 12 standard colours plus other colours and specialist materials available on request.

Please note - these colours can only be approximations as we have no control over your display device or media.

- **Supplied in sheet form** – your labels arrive in order on a backing sheet to save you time and money on site. You simply peel them off and apply.
- **Durable adhesive** – high quality 3M permanent adhesive which has been proven in tests to stay put.

“Sharpmark has been supplying engraved labels to us for several years. The speed of delivery is very good – they turn jobs around for us quickly. We just tell them the type of patch panel we’re using and the number range required. Sharpmark then produce the labels with all the numbers spaced out correctly as per the panel requirements and deliver them to the site the next day. Sharpmark provides a good product, friendly service and guaranteed delivery. We set them a task and they deliver.”

Paul Rogers, Operations Director, PTC Systems Limited

About Sharpmark Solutions

We are leaders in specialist labelling and identification systems and have been supplying the telecoms, electrical and construction industries for 15 years.
